offering list.

Sustainably and ethically sourced

GROUP 1 COFFEES

Magic Estate

Martin began coffee farming right after he left working at the Postal Cooperation of Kenya. He has been farming coffee for the last six years at his home in Kangubiri village in Nyeri.

SUPER-NATURAL: \$ 13.5| KG:

We hand-picked the cherries and slow dried under supervised conditions before hulling the flavours consist of plum with maple syrupy mouth feel, grape fruit and cherry jam on the finish.

BLACK HONEY: \$ 17.8| KG:

The cherries were selectively hand-picked, dry pulped and covered on the raised African beds to prolong the drying phase up to 18 days the flavours consist of Complex, with hints of berries, black currant, with a sweet tropical flavour on the finish.

GROUP 2 COFFEES

Ndun'gu Estate:

Ndun'gu celebrates progress & cherish peace within communities, the estate is located in the south western Kenya. Our producers always unit to ensure they give the best they can in terms of quality and we are united with them through Direct trade.

SUPER-NATURAL: \$ 19.8| KG:

we sundry the coffee beans inside the coffee cherry, harnessing the power of fermentation to impart natural sweetness the flavors consist of sweet, floral taste, bright acidity and lack of bitterness,.

YELLOW HONEY: \$23.5| KG:

As the coffee is drying, the sticky coating on the outside of the beans oxidized and darken in color turning golden yellow we stopped at this point. The coffee has clarity with a medium-high acidity, medium-high acidity, pleasant middle ground when it comes to flavor, with an extra hint of sweetness.
